

SREELAKSHMI V

SOFTWARE DEVELOPER

PERSONAL INFO

As a web developer, I am passionate about creating impactful digital experiences. I have developed projects using Django and React, showcasing my ability to build scalable applications. Currently, I am expanding my skills in Git and Agile methodologies to produce clean, maintainable code. With a solid foundation in Python, HTML, and basic knowledge of AI and Machine Learning, I am eager to bring innovative ideas and collaborate with a dynamic team while continuously honing my expertise.
